How large do you want this disk to be?	
The virtual machine's hard disk is stored as one or more files on the ho computer's physical disk. These file(s) start small and become larger a applications, files, and data to your virtual machine.	ost as you add
Maximum disk size (GB):	
Recommended size for Debian 12.x: 20 GB	
◯ Store virtual disk as a single file	
 Split virtual disk into multiple files 	
Splitting the disk makes it easier to move the virtual machine to and computer but may reduce performance with very large disks.	other
